

ELECTRIC BASS MEASUREMENT FORM

(Also use for acoustic bass)

MEASURING INSTRUCTIONS

1. Place the instrument on the table, slanted headstock should hang off table edge.
2. Take measurements to the nearest 1/16".
3. Note anything unusual about your guitar. Have there been any modifications since the original/factory purchase or anything else that requires special cutting of the padding? If so, please include the details and/or measurements for these items in the notes field.

TRACING INSTRUCTIONS

1. Place the instrument laying flat on a solid surface, with the paper placed underneath. Use a sturdy paper but no cardboard please.
2. With your drawing tool placed firmly against the instrument's edge, and perpendicular to the surface of the paper, mark the paper according to the contour of the instrument.

PHOTO INSTRUCTIONS

Take 3 Photos of your instrument and submit them with your tracing. Place post-it note on instrument body (we use this for scale). **A.** Hold camera directly above the center of the body and photograph the body. **B.** Hold camera directly above center of instrument and photograph the entire instrument. **C.** Hold camera perpendicular to the side of instrument and photograph side profile of the entire instrument.
